

Red Brick School House built about 1927. Closed in 1931. About ten miles north of Heber. Several homes and a hotel were in this area.

The Keetley mining area was first prospected in 1875-1876 but the mining industry did not become a reality until about 1920. Then identical frame cottages were built on the brow of the wind swept hill. Other cottages were located further up the canyon.

Park Utah Mine Facts:

" " " opened in 1916 ①
When Geo Lambourne & Geo Blood
obtained rights to use the five mile
long Ontario Drain Tunnel for a
mining operation.
